ULTIMATE AVIATION BUSINESS MANAGEMENT SOFTWARE
FOR COMPANIES OF ANY SIZE
**SOLUTION**

**Commercial Airlines** executives manage a large amount of complex data on a daily basis in order to properly employ and control their resources as well as serve their customers efficiently.

**Awery ERP provides** all the required tools, reminders, templates and reports in one place integrating business and financial operations, covering the entire workflow and supplying a multifunctional platform for day-to-day business activities.
HOW WE HELP BUSINESSES

- Improve business processes and visibility
- Reduce human intervention and prevent multiple errors
- Save time and efforts
- Assist in decision making
- Boost profitability
Charter Flight Request
- Charter calculation module
- Cost rates centre
- Client quotation generation
- Converting quotation to confirmed flight

Managing scheduled flights/truck trips
- Automatic schedule creation based on the original trip information
- Space availability control

Cargo reservation on charter and scheduled flights
- Direct booking from the airline website
- Stock assignment to clients
- Airport/locations database: IATA, ICAO, city and country
- Different metric system support
- Generating booking confirmation based on customizable email templates

SPOT rates - Quote Creation
- Automatic basic rates based on the routing
- Generating quote based on customizable email templates
- Converting to Cargo Booking upon the client acceptance

Trip Follow-up
- Generating cargo load plan per trip
- Updating shipment movements
- Shipments summary based on the load and off-load details
- Trip movements control
- Movements notifications by mail to all involved parties

Cargo acceptance and documents processing
- Shipment details confirmation at the warehouse
- Warehouse inventory control
- Printing labels and Cargo Booking forms
- Attaching shipment documents feature

AWB Closing and Billing
- Buying/selling cargo rate sheets
- CASS billing support
- Taxation feature
- Freight collect support
- Distribution of revenue and cost per trip
- Building up revenue and invoicing the client per trip, Cargo Booking or multiple shipments
- Allocation of invoices to specific Cargo Bookings/trips
- Allocation of payments to invoices, automatic notifications to clients on outstanding balance, credit limit control
- Cargo Booking profitability calculation and reports/diagrams

Flight Closing and Billing
- Generating charter agreement
- Invoicing clients (several clients per flight, mixed charter/cargo flights)
- Estimated vs actual costs control with allocation to purchase invoices
- Flight profitability calculation per flight/aircraft
- Crew flight logs processing, ACMI cost calculation, aircraft and crew flight/log hours reporting
- Generating trip summary for internal accounting

INFO & RATES DATABASE
- e-Cargo support based on messaging
- Track and trace messages, integration to the client website available
- Online cargo booking engine, integration to the client website available
- Statuses updates
- Alerts and notifications

Attachments
- Cargo Bookings databases with multiple filters
- Advanced reporting
- Incoming mail integration with automatic assigning to shipments/trips

Awery Aviation ERP is a complete integrated web-based extremely flexible and customizable platform that manages main aviation business processes: sales, operations, finance and HR, increasing productivity, reliability, and efficiency.
KEY FEATURES

Flexible connectivity to other systems for data exchange
Transparent information flow within the company
Blazingly fast performance
User-friendly interface

Bank-grade security with advanced access policies
Support of Multi-Company (Branches) configuration
Customer service tools
Mobile apps
SYSTEM PROVIDES

An integrated real-time view of core business processes accessible from any place in the world

Powerful CRM, informational database, source for tactical and strategic planning

Up-to-date management reports and data for analysis, automated documentation

Integrated mailing/messaging system with templates support
**DEPLOYMENT OPTIONS**

**AWERY ERP CLOUD**

- Hosted, supported, and managed by Awery 24 hours, 7 days a week.
- Monthly license fees per user.
- No hardware related and IT support costs.
- Perfect solution for small and midsize aviation businesses.

**AWERY ERP HOSTED**

- System is hosted on customer server – in data center or in customer’s local IT infrastructure.
- Goes with Database License and 24/7/365 Awery support.
- Best fits big aviation players with sophisticated IT infrastructure.
**MODULES (1)**

**FLIGHT OPERATIONS**
- Flights database with advanced filters and reports.
- Charter and scheduled flights planning, creation and follow-ups.
- Interactive map and Gantt view.
- Routing services control with request templates support.
- Flight briefings, cargo manifests and general declarations, automatic weather and notams update reports.
- Advanced flight logs processing.
- Revenue and costs control with direct link to accounting.

**FLEET MANAGEMENT**
- Aircraft and aircraft types database with full technical details.
- Fleet specifications, photo galleries.
- Documents control with notifications.
- Maintenance schedule, MEL resources tracking.
- ACM1 rates and charges database for different locations.
- Advanced customizable reporting based on flight logs.
**MODULES (2)**

**CREW CONTROL**
- Crew rostering, scheduling and assignment to duties and flights.
- Flight Duty Time and Flight Time Limitations (FDTL) Control.
- Crew salary, bonuses, additional payments and expenses.
- Documents, trainings and vacations management.
- Advanced reporting.

**CREW PORTAL**
- Personal crew member login.
- Checking, confirming or refusing upcoming flights.
- Checking flight details and documentation (brief, flight plan, crew general declaration, manifest, weather and notams).
- Standby and days off schedule.
- Vacations requests and their status updates.
- Alerts on expiring documents and trainings.
- Checking compliance with flights and duty limitations.
- Submitting comments and attachments.
- Inputting and attaching flight log data.
- iOS and Android mobile apps support.

**AVIATION SERVICES MANAGEMENT**
- Automated flight services requests control.
- Services requests processing and management: fuelling, handling, permits, flight plans, etc.
- Preferred vendors management based on priority, service type, customer requests, flight category and country/location.
- Sale and cost rates database for services.
- Revenue and costs calculation, accounting processing/allocation.
- Automated messages generation based on Text, HTML and SITA templates.
- Web and mobile service status tracking/request application for the customers.
• Automated process to speed up input of enquiries, send requests to operators, quote customers, make flight briefing, generate charter agreements, reports, summary reports, etc.
• Segregated database of enquiries filterable by: type of request (Commercial Jet, VIP, Cargo), unique reference, fixture number, status, dates of flight, routing, broker, etc.
• Advanced support databases: operators, fleet, aircraft types, airports, countries, etc.
• CRM features: customers/suppliers with contact details, requests, activities, tasks and messaging history.
• Automated message generation to send requests to operators.
• Response from operators: schedule details, charter price details, additional services price details.
• Response from customers: won, lost with reason, fixture details, fixture schedule, fixture reference number.
• Empty legs enquiries management, operator’s empty legs connectivity through API.
• Interactive world map with combined data from enquiries database and empty legs with analytics.
• Charter calculation that allows cost calculation per sector using either rates database or previous calculations.
CARGO MANAGEMENT
- AWB database with advanced filters.
- Cargo planning on flights/truck trips.
- Automated track and trace.
- Rates database.
- Revenue and costs control.
- AWB stock management.
- AWB and labels printing.
- Full AWB Accounting processing.
- CASS export, e-AWB and messaging support.

CARGO QUOTATION
- Cargo quotations database with advanced filters.
- Advanced rates database.
- Creation of quotes from incoming mails and cargo bookings from quotes.
- Automated message generation to reply customer requests.
- Full correspondence history.

CHARTER CALCULATION
- Filterable quotes/calculation database.
- Connection to flight planning software for precise route data, such as flight time, fuel consumption, navigation charges, based on aircraft type and weather.
- Advanced rates management for all types of costs.
- Instant converting of estimations into commercial offers.
MODUL\(\text{ES (5)}\)

CARGO RESERVATION

- Full Online booking engine with agent stock control.
- Planning cargo on flights.
- Track and trace with automated status updates and integration to website.
- iOS and Android mobile apps support with push notifications.
- Possible integration with 3rd parties apps.

CARGO TRACK & TRACE

- Customization to customer’s corporate design.
- AWB details.
- Easy shipments tracking.
- Full information on cargo movements.
- Graphical presentation of routing.
- iOS and Android mobile apps support with push notifications.

ULD CONTROL

- ULD planning on flights.
- Proactive monitoring and real-time system alerts.
- Visibility of your airline’s entire ULD inventory.
- Transfer handling.
- Stock check, repair control, condition updates.
- Pallets availability at multiple locations.
- Management reports.
**MODULES (6)**

**FLIGHT STATUS LIVE UPDATE**
- Direct integration to customer's website.
- Customization to customer’s corporate design.
- Immediate schedule update.

**CRM**
- Customers/suppliers/leads management with advanced multiple contacts, types, statuses, extra fields management.
- Activities control and linked tasks history, documents upload.
- Credit terms.
- History of operations, accounting integration, reporting.

**INFO & RATES DATABASE**
- Aircraft Types: VIP, Commercial, Cargo, Rotary Wings; categories, full data (MTOW, cabin dimensions, facilities, speed), photo gallery, list of aircrafts.
- Airports: longitude, latitude, time zone, runway details, tarmac details, terminals details, procedures, restrictions, permissions.
- Countries: region, sanctions, list of airports.
- Distances: flight distance, entry points, weather codes, notams, flight/block time for reporting.
- Contacts: all companies contacts grouped by contractor or company, extended search.
- Rates: currency rates, customer specific rates, services rates, shipping rates, fuel rates, fixed expenses for airports, flight cost center, etc.
- Other data selector editors: variable pick lists, services, revenue, expense types, etc.
MAIL LINK

- Mailbox import with attachments to Awery ERP.
- Messages database with statuses, labels and advanced filters.
- Messages auto-linking to threads, customers, quotes, tasks, activities, flights, services, AWB’s.
- Messages history in customer/supplier profiles.

ACCOUNTING & FINANCE

- All standard accounting and financial functions with advanced reporting.
- GAAP compliant full featured solution for accounting management.
- Custom COA, multi-branch, multi-currency and taxation support.
- Deep integration of finance and operational/sales data.
- Cost and revenue centers allocation.
- Receivables and payables control.
- Bank and cash, credit and debit notes, JVs management.
- Fixed assets and prepayments control.
- Trial Balance, Balance Sheet, Profit and Loss, Cash Flow and other reports.
